## Description

Riviera 57 Enclosed Flybridge - Shaft or Pod Drive Creating a completely new Riviera was an opportunity to design a launch for the ultimate boating experience in the Riviera 57 Enclosed Flybridge. The distinctive new design features of a fully enclosed and proportioned flybridge make it a perfect launch for the New Zealand weather and seas. The talented team of engineers and designers quickly turned to Riviera's Bluewater cruising owners for advice at the beginning of the project. What did owners have to say? That they want more time living aboard and desire to go cruising. Options were also extremely important and apply equally to navigation and on-board systems as it does to drive packages. Riviera 57 Enclosed Flybridge Features

- Ultra-modern flybridge enclosed on all four sides, with optional clears
- Striking ergonomic helm design and centre console
- Excellent visibility and easy access to all controls
- Adjusting helm seats
- Flybridge docking station with joystick, throttles and steering wheel for IPS or throttles and bow thruster for shaft drive, with optional EJS
- Functional storage solutions

Riviera 57 Enclosed Cockpit Features

- Entirely new indoor/outdoor experience
- Transom lounge, storage, wet bar with twin BBQ, fridge and ice-maker
- Large awning window and sliding glass door connects galley to cockpit
- Wide walk-around side decks with handrails for safety
- Large foredeck with optional sun pad or davit for tender

Riviera 57 Enclosed Interior Features

- Furnishings with the finest fabrics and leathers
- Sliding saloon windows enhance natural light and cross ventilation
- Three-stateroom, two-bathroom accommodation plan
- Full-beam master stateroom with ensuite
- Long fixed hull windows and optional portholes
- Bed headboards in every stateroom and LED mood lighting
- Reverse-cycle air-conditioning throughout
